

GGD- Compliant Standards.

Immediate Care (First 24 Hours)

- Leave the bandage on for 3 to 5 hours.If using specialized "Second Skin" adhesive film, leave for 3 to 5 days unless it leaks or peels.
- Wash hands with antibacterial soap, then gently clean the tattoo with lukewarm water and a mild, fragrance-free, pH-neutral soap.
- Pat dry with a clean paper towel. Do not rub.

Daily Routine (Next 2 Weeks)

- Wash the tattoo twice daily (morning and evening).
- Apply a very thin layer of Bepanthen Tattoo or recommended ointment 3 times daily.
- Wear loose, clean cotton clothing.
- Avoid wool or fabrics that may stick to the wound

. Restrictions

- Do not scratch, pick, or peel scabs
- No swimming, baths, or saunas for 2 weeks
- No direct sunlight or tanning beds for 4 weeks
- Use SPF 30+ once healed
